

PAKISTAN'S LEADING INSECT LIGHT TRAP SYSTEM

PRODUCT PORTFOLIO

**Redefining
Pest Control**

ABOUT US

We are not just in the business of pest control; we are on a mission to redefine the way you experience and combat pest infestations. With a commitment to innovation, quality, and environmental responsibility, we take immense pride in presenting Verminator® Registered Insect Light Traps and Electric Insect Killers.

At Verminator, we're dedicated to revolutionizing pest control Industry. Our ISO, CE, and Pakistan Standards Certified Insect Light Traps, developed in collaboration with Philips, combine innovation, style, and environmental responsibility.

We're committed to your well-being and continually enhance our products to deliver top-notch solutions.

Our Insect Light Traps discreetly capture pests with its UV guarded glue boards, providing safe and effective control while blending seamlessly with your decor. We prioritize eco-friendly methods, ensuring your space remains inviting and insect-free.

Choose Verminator for trusted, elegant, and high-performance pest control with an unwavering commitment to excellence, Verminator offers you more than just pest control; we offer peace of mind and style. Join us in creating pest-free environments and discover how we're reshaping the future of pest control

Innovation:

We believe that innovation is the key to solving age-old challenges. Verminator Insect Light Traps are the embodiment of this belief, designed to outperform traditional methods while being environmentally conscious.

Environmental Responsibility:

We are committed to preserving our environment and ensuring the safety of all living beings. Our traps capture insects instead of eliminating them with toxic substances, making your space safer for everyone.

Certified Excellence:

Verminator Insect Light Traps are ISO, CE, and Pakistan Standards Certified, setting the industry standard for safety and performance. We prioritize your well-being and peace of mind.
